The yearly meeting in Philadelphia. in probably the largest dealerstive assembly in the world. The members convens in two large buildings in Arch Street, not indoed as splendid as tile, Capitel, but quite as commoditus, and though they are not all the most fluent speakers, there appears to be among them a stock of good sense which would well atone for the lack of eloquence.-They are of both sexes, and all ages. One house is compased exclusively of females, and confers with the other by means of committees. In this division of the assembly into two parts, the year ly meetting may be likened to our national legislature; but we fear that there are few other points in which a resemblance can be discoveded; for here is no letter writing, newspaper reading, or those speaking. When a s bject is broached, a member rises and gives his opinion of it in language at once !

PROPOSALS BY WHIJIAM S. MARSH,

For Publishing, by Subscription, AN ORIGINAL WORK, TO BE ENTI-TLED, SKETCHES OF THE LIVE AND CHARACTER OF

STEPHEN DECATUR Commidere and Post Captain in the Navy of the United States, and Narry Com. measioner, Interspersed with Notices of the Origin, Pro-

grees, Achievements, and present state of the American Navy. BY S. PUTNAM WALDO, Esq.

Compiler of " Itobins' Journal," author of Pre-"sident's Tour" and "Memoirs of Jackson." STEPHEN DECATUR'S name and glory are so perfectly identified with that of the American Navy, that we cannot reflect upor the renown of the latter, without blending with t the gallant achievements of the former. He was an early and favourite pupil of the immortalized Parbles, who may as emphatically be called the Preceptor of the American Navy, as

the venerable John Adams has been proncun-

Whether we consider Decatur as a youthful champion, Loarding a Coreair and slaying its commander, who had treachesously slain his brother—as an intrepid officer destroying an enemy frigate under the gun's of a for tress deemed by the Turks impregnable as a commander undauntedly meeting and capturing the floating bulwark of Britain-as the Commodore of a squadron, conquering a Barbury power, and compelling it to sue for peace
—or as an accomplished officer at the seat of Government, assisting in giving perfection and power to the Navy of our Republic. In each of these capacities his character equally excites our admiration. The object of this work s to enable the reader to trace the progress of this kero, the pride and boast of our country, from the first dawnings of his greatness, to the meridian splendour of his glory. The materials from which the work will be prepared are of unquestionable authenticity; and the volume will not be swelled with matter unconnected with the life, character, and achievements of DECATUR, and the origin, progress, and present state of the American
